**DETAILED ACTION**

***Response to Preliminary Amendment***

1. The Applicants' Preliminary Amendment filed on 01/25/2007 was entered. As the results, new claims 12 and 13 were added. At this point, claims 1-13 are pending in this Application.

***Allowable Subject Matter***

2. Claims 1-13 are allowed.
3. The following is an examiner's statement of reasons for allowance:

There are several references that teach charging systems having different charging strategies or rules with different charging rates and preference charging criteria to implement and perform on calls or services provided to subscribers. The charging system matches parameters of the call or service to one or more of stored preference charging criteria in order to retrieve the charging rate to be applied to the call or service. However, none of the them, alone or in combination, clearly teaches or fairly suggests the combination of features of a method and a system for charging communication services as recited in the independent claims 1 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
